Corporate Presentation

September 2023

Safe Harbor Disclaimer

This presentation and other written or oral statements made from time to time by representatives of The Glimpse Group, Inc. contain “forward-looking statements” within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements reflect the current view about future events. Statements that are not historical in nature, such as any forecasts, and which may be identified by the use of words like “expects,” “assumes,” “projects,” “anticipates,” “estimates,” “we believe,” “could be,” “future” or the negative of these terms and other words of similar meaning, are forward-looking statements. Such statements include, but are not limited to, statements contained in this presentation relating to our expected sales, cash flows and financial performance, business, business strategy, expansion, growth, products and services we may offer in the future and the timing of their development, sales and marketing strategy and capital outlook. Forward-looking statements are based on management’s current expectations and assumptions regarding our business, the economy and other future conditions and are subject to inherent risks, uncertainties and changes of circumstances that are difficult to predict and may cause actual results to differ materially from those contemplated or expressed. We caution you, therefore, against relying on any of these forward-looking statements.

Important factors that could cause actual results to differ materially from those in the forward looking statements include: a continued decline in general economic conditions nationally and internationally; decreased demand for our products and services. Market acceptance of our products; the ability to protect our intellectual property rights impact of any litigation or infringement actions brought against us competition from other providers and products risks in product development inability to raise capital to fund continuing operations changes in government regulation, the ability to complete customer transactions and capital raising transactions. Should one or more of these risks or uncertainties materialize, or should the underlying assumptions prove incorrect, actual results may differ significantly from those anticipated, believed, estimated, expected, intended or planned.

Factors or events that could cause actual results to differ may emerge from time to time, and it is not possible for us to predict all of them. We cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform such statements to actual results. Furthermore, no representations or warranties are made as to the accuracy or reasonableness of such assumptions or the projections or forward-looking statements based thereon.

FORECASTS

All forecasts are provided by management in this presentation and are based on information available to us at this time and management expects that internal projections and expectations may change over time. In addition, the forecasts are entirely on management’s best estimate of our future financial performance given our current contracts, current backlog of opportunities and conversations with new and existing customers about our products.

Overview

The Glimpse Group is an Immersive Technology Company Comprised of Multiple Enterprise Focused Immersive Technology Software & Services Companies, Addressing a Potential Trillion \$ Market Opportunity

Glimpse Structure

- IPO July 1, 2021; Nasdaq VRAR
- Fully own and operate multiple VR/AR subsidiary companies
- Each focused on a different industry vertical in a collaborative manner

Scale & Capital Structure

- One of the largest independent SW & Services Immersive tech companies
- High and consistent revenue growth; Approximately \$10.6MM revenue in 9M FY '23 vs. approximately \$4.8MM 9M FY '22
- Cash & Equiv balance of approx. \$8.3MM (including \$2MM S5D acq escrow) as of 3/31/23 + committed to cash flow breakeven in CY '23
- Clean capital structure no material cash liabilities, no preferred equity issued, no outstanding debt

Unique Platform Strategy

- Experienced Management and dynamic ecosystem of VR/AR professionals with deep domain expertise
- Work collaboratively to address the many challenges faced by companies in an emerging industry
- Shared operational, financial and technological infrastructure

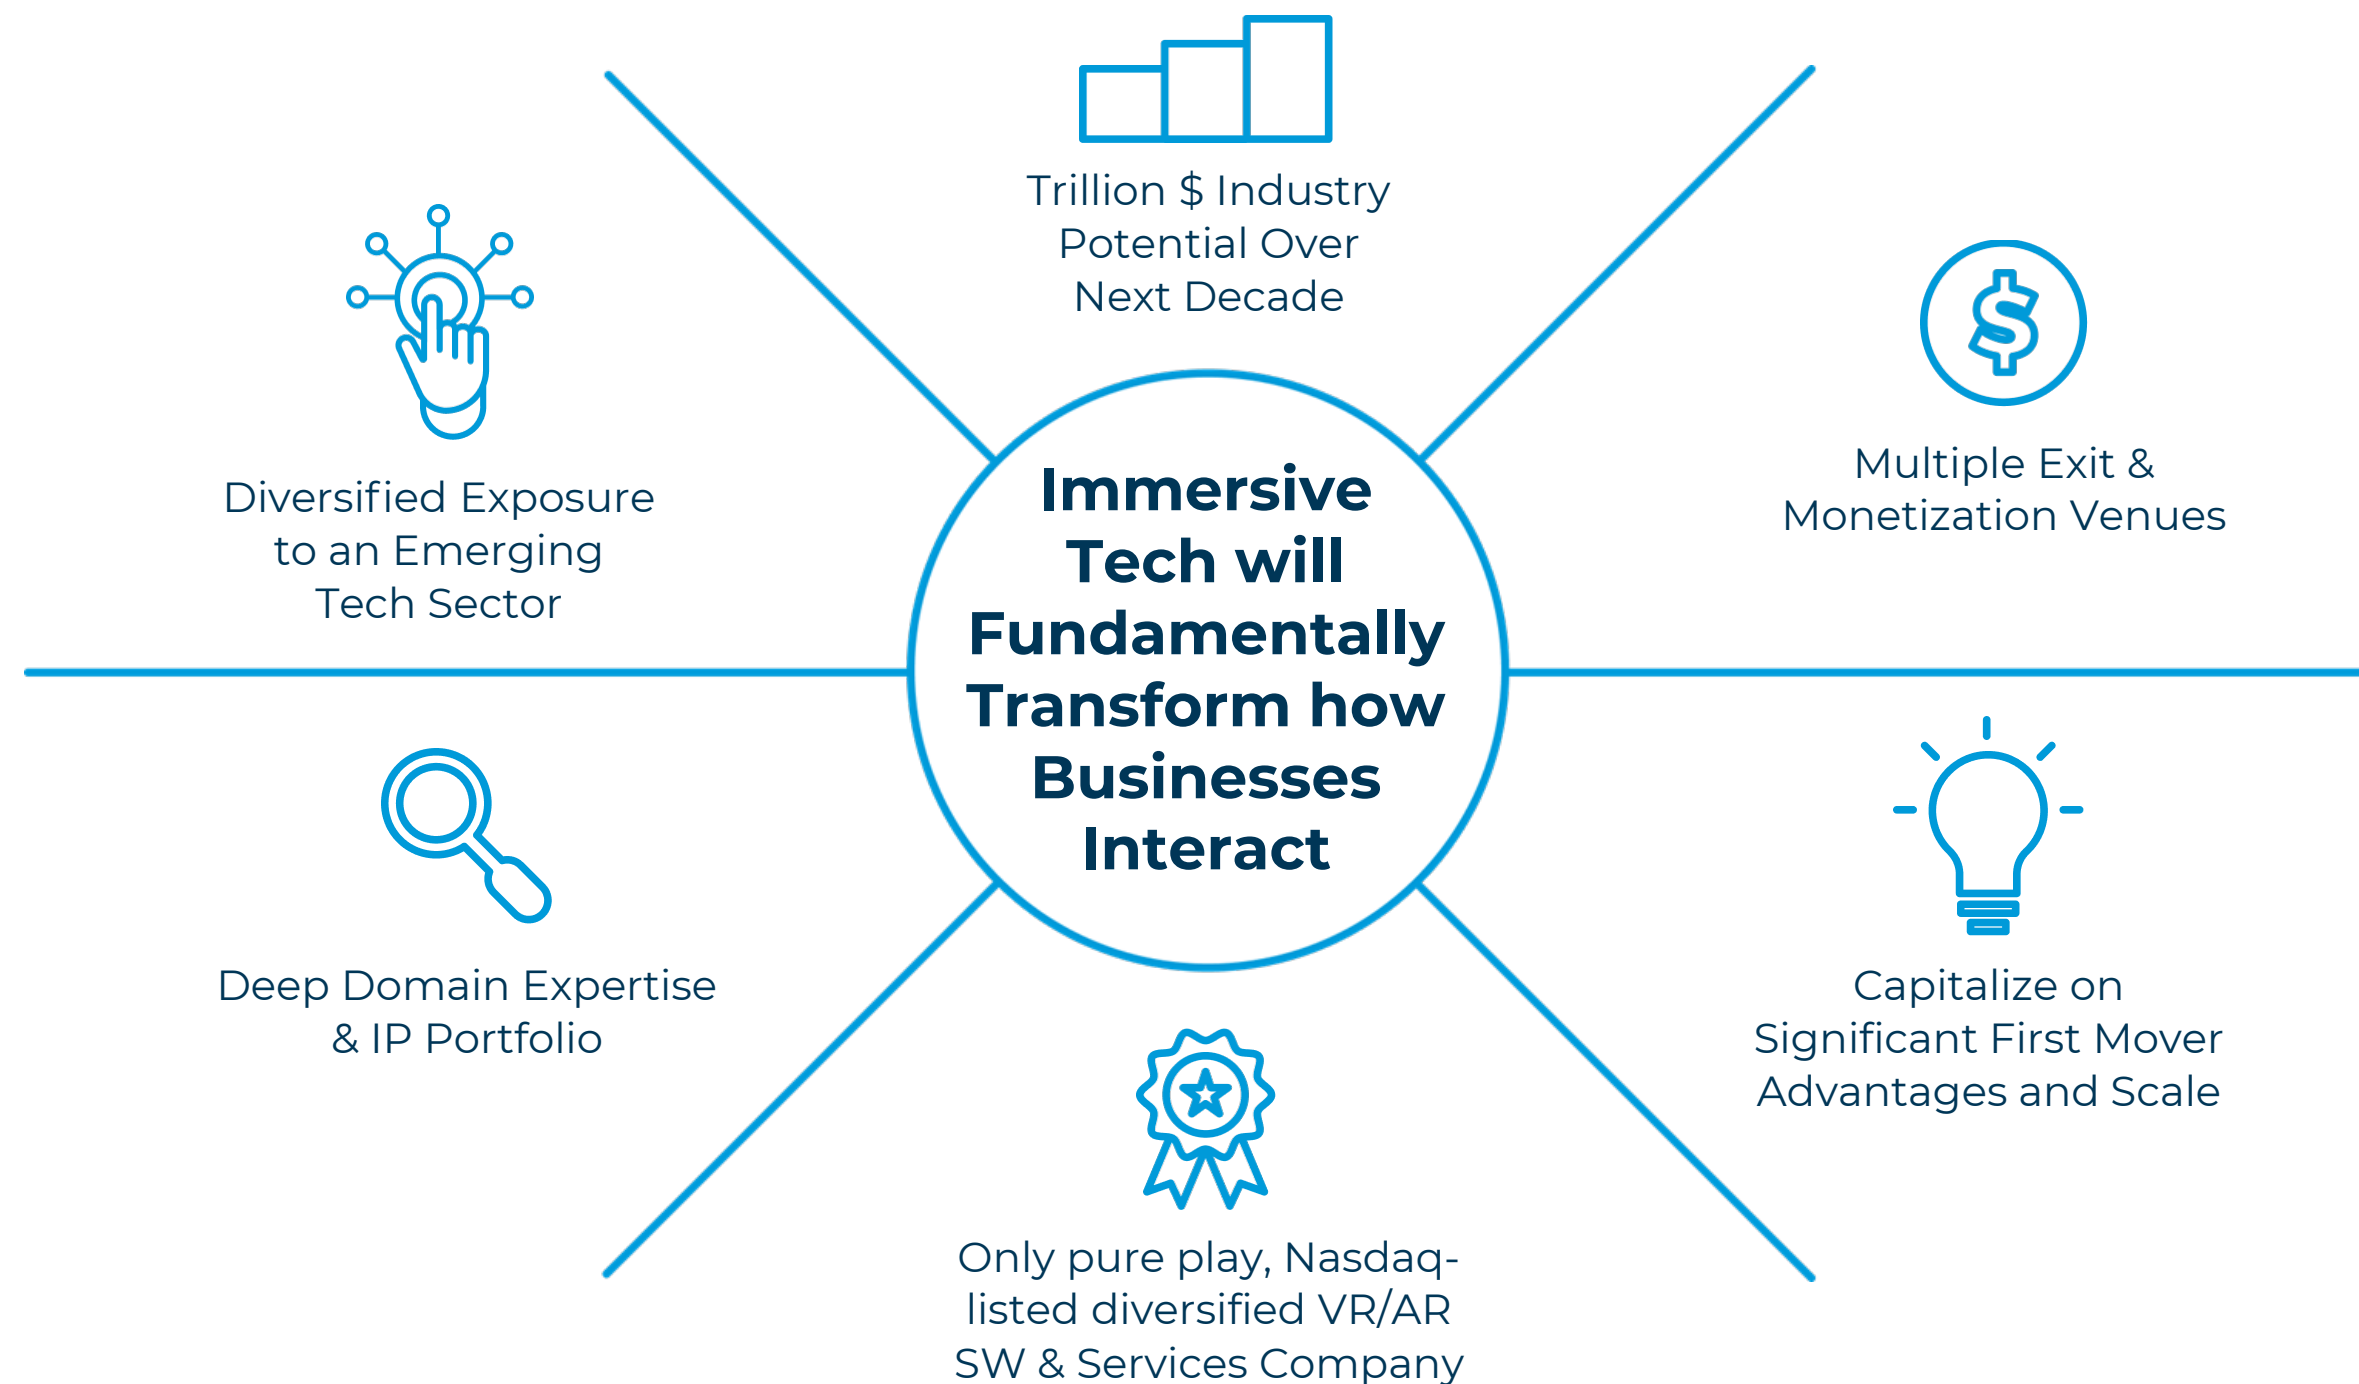

Intellectual Property

- 150+ full-time developers, engineers and 3D artists
- 10 issued patents + 3 active patent applications
- Direct tie-in to other emerging technologies: AI, Spatial Computing, Computer Vision, Big Data, Blockchain

Investment Thesis

Immersive Industry Market Opportunity

“We project the metaverse could reach a market size of \$700 billion to \$900 billion by 2030. Furthermore, the next 5 to 10 years will likely determine the metaverse’s major winners”

Bain Capital, 2023

“Users should increasingly be able to access a host of use cases, including commerce, art, media, advertising, healthcare, and social collaboration. A device-agnostic Metaverse would be accessible via personal computers, game consoles, and smartphones, resulting in a large ecosystem. Using this broad definition, the total addressable market for the Metaverse could be between \$8 trillion and \$13 trillion by 2030, with total Metaverse users numbering around five billion.”

Citi Global Perspectives & Solutions, 2022

“we arrive at a ~\$2.6tn total market opportunity and in the most bullish scenario of ~33% of the digital economy shifting to the Metaverse and ~25% market expansion, we arrive at a ~\$12.5tn opportunity. While the range is quite broad, we acknowledge that we are still 20 years into web 2.0 and expect the timing of web 3.0 will be similar, if not longer.”

Goldman Sachs Research, 2022

Executive Biographies (I)

Lyron Bentovim - President & CEO, Chairman of the Board

Mr. Bentovim has over 25 years of experience in executive management, technology investing and entrepreneurship. Prior to co-founding the Glimpse Group in 2016, between 2008-2016, Mr. Bentovim served as CFO and COO for several technology companies: Top Image Systems (TISA; a SAAS software company), NIT Health (a healthcare IT company) and Sunrise Telecom, Inc (SRTI; a test and measurement solutions for telecom, wireless and cable networks). He also founded DarklightPartners, a strategic advisory to small and mid-cap companies. Between 2002 and 2008, Mr. Bentovim was a co-founder and Managing Director of Skiritai Capital LLC, a San Francisco based hedge fund focused on small cap technology investing. Prior to this, Mr. Bentovim was an entrepreneur, as co-founder and President/COO of Webrix, Inc. Additionally, Mr. Bentovim has held positions as a Senior Engagement Manager with strategy consultancies: USWeb/CKS, the Mitchell Madison Group LLC and McKinsey & Company Inc. He has also serves on the board of directors for multiple public and private companies. Mr. Bentovim holds an MBA from Yale School of Management and a Law degree from the Hebrew University.

D.J. Smith - Chief Creative Officer, Board Member

Mr. Smith is the Organizer of the 2nd Largest Virtual Reality Meetup in the world called NYVR, founded in 2013. Mr. Smith has extensive domain expertise and knowledge of virtual and augmented reality hardware, software and content creation. In addition, his role as NYVR Organizer provides a deep understanding of the virtual reality industry, a real-time access to current industry developments, as well as a direct connection to virtual reality entrepreneurs and startups. In parallel with NYVR, Mr. Smith founded VRTech Consulting, Inc. whose purpose was to educate businesses in the field of virtual reality and assist in procuring virtual reality services. Mr. Smith holds a BS in Civil Engineering from Pennsylvania State University and brings 18 years of project management in construction and real estate development.

Maydan Rothblum - CFO & COO, Board Member, Board Secretary, Treasurer

Mr. Rothblum has 25 years of experience in finance, operations, business development and M&A. From 2004-2016, he was co-founder, Managing Director and COO of Sigma Capital Partners, a middle-market private investment firm, where he sourced, structured and led negotiated investments into publicly traded and private companies, primarily in the technology and business services sectors. Additionally, he oversaw the Fund's portfolio, held board positions and managed the fund's day-to-day operations, including financial statement preparation, cash flow management, audit, portfolio valuation and financial reporting. Prior to Sigma, Mr. Rothblum held positions at Apax Partners, a global private equity fund and Booz, Allen & Hamilton, a global strategic consultancy. Mr. Rothblum served as an engineer in the Israeli Defense Forces, where he focused on designing and implementing large logistics, information technology and inventory management projects. Mr. Rothblum holds an MBA from Columbia Business School and a BS in Industrial Engineering and Management from the Technion - Israel Institute of Technology.

Executive Biographies (II)

Jeff Meisner - Chief Revenue Officer, Board Member

Mr. Meisner has over three decades of experience serving as an executive leader in technology companies. Mr. Meisner first served as Vice President of the Speedware Corporation, an Internet solutions and IT company. He then founded and served as CEO of Skyline Sector 5, a tradeshow and event marketing solutions development company. In 2014, Mr. Meisner became the General Manager of Sector 5 Digital, an award-winning creative studio developing innovative digital content for industry-leading brands. Under his leadership, S5D continues to design VR and AR solutions for major brands in marketing, communications, entertainment, virtual events, training, and simulation. Now, as CRO of The Glimpse Group, Mr. Meisner identifies and develops synergies between subsidiaries to facilitate comprehensive enterprise solutions that maximize their ROI. Mr. Meisner also serves on the Board of Directors for Cristo Rey Fort Worth High School, a non-profit high school focused on educating students from low-income backgrounds. Mr. Meisner holds a BS in Electrical Engineering from the University of Waterloo.

Tyler Gates - Chief Futurist

Mr. Gates has spent over a decade as a visionary for immersive technology, spatial computing, and the exploration of the human experience in the virtual world. He is the General Manager at Brightline Interactive, an award-winning creative technology agency. He is a visionary for the applications of VR/AR technology for enterprise, branding and government solutions and an expert in transforming client needs into tangible concepts and ideas through the use of VR/AR technology. Mr. Gates is dedicated to growing the use of VR and AR technology through thought-leadership, speaking worldwide and hosting the VR/AR Association's (VRARA) podcast, "Everything VR/AR", as well as the President of the DC Chapter of VRARA. He is an active member of the National Defense Industrial Association (NDIA). Additionally, he served on various subcommittees for the Interservice/Industry, Training, Simulation, and Education Conference (I/ITSEC), sponsored by the National Training and Simulation Association (NTSA), an affiliate of NDIA since 2019.

Independent Board of Directors

Sharon Rowlands - Independent Board Member

Ms. Sharon Rowlands has over 20 years of experience leading multi-billion-dollar companies serving small and medium-sized businesses, financial markets and enterprise customers. Since January 2019, she has been the CEO of Newfold Digital (previously Web.com). Prior to that, she was the CEO of ReachLocal, Inc. (previously Nasdaq: RLOC, acquired by Gannett Co., Inc [NYSE: GCI] in August 2016) and the president of the USA TODAY's Network Marketing Solutions business. Prior to ReachLocal, she served as CEO of Penton Business Media Holdings, Inc., CEO of Altegrity, LLC and CEO of Thomson Financial. Underscoring her leadership expertise, Ms. Rowlands was named Customer Focused CEO of the Year in the 2016 CEO World Awards, won the Gold Stevie Award for Female Executive of the Year in 2016, and was also named Female CEO of the Year in the 2016 One Planet Awards. In addition to Glimpse, Ms. Rowlands currently serves as a director of PegaSystems, Inc. (Nasdaq: PEGA). Previously, she was a director of Constant Contact (Nasdaq: CTCT) and Automatic Data Processing, Inc. (Nasdaq: ADP). Ms. Rowlands earned her Postgraduate Certificate in Education from the University of London and her B.A. in History from Newcastle University.

Jeff Enslin - Independent Board Member

For over 20 years, Mr. Enslin worked as Global Macro/Emerging Market portfolio manager and Partner at Caxton Associates LP - a leading macro focused hedge fund. Mr. Enslin was also actively involved in the management of the firm. Prior to Caxton, Mr. Enslin worked at Kiloran Corporation, a macro focused hedge fund. He also worked as a commercial lender, managing banking relationships with middle market companies, while at Maryland National Bank (now part of Bank of America). Since 2010, Mr. Enslin has served on both the Investment Committees at Lehigh University (\$1B+ Endowment) and the Peddie School (Chair - \$300mm+ Endowment). For the last several years, Mr. Enslin has been actively involved as an angel investor across a wide spectrum of start-up businesses. Mr. Enslin received a B.S. in Finance from Lehigh University and an MBA in Finance and International Business from New York University's Stern School of Business.

Lemuel Amen - Independent Board Member

Mr. Lemuel Amen is the Founder and Chairman of Altius Manufacturing Group, LLC., an equity growth management firm, and has held senior executive positions for Electronic Data Systems (EDS) and 3M. He has served as a board director for a private technology firm, AbeTech Inc. since 2009, and on the board of advisors of private industrial firm, Diversified Chemical Technology, Inc., since 2018. Mr. Amen is an experienced board member serving technology, industrial services, and application software firms, including: Chairman of Viking Engineering and Development Inc (2011-2017); Bauer Welding & Metal Fabricators, Inc., (2013-2016); lead director for HighJump Software, Inc.(2005-2008). He served as Chairman for the Federal Reserve Bank of Minneapolis, Ninth District Advisory Council (2012-2015). Additional board director posts include: University of Michigan-Dearborn College of Business, Board of Advisors (2019-present); State of Minnesota Governor's Workforce Development Council (2016-2019); Ordway Center for the Performing Arts (2015-2018); Junior Achievement Worldwide Inc., Global Board of Directors (2003-2008); Northwestern University McCormick School of Engineering & Computer Science, Industrial Advisory Board (2000-2006). Mr. Amen earned his M.S. in Civil and Environmental Engineering from Northwestern University, and his B.S. in Mechanical Engineering at California State University-Northridge.

Alexander Ruckdaeschel - Independent Board Member

Alexander Ruckdaeschel has worked in the financial industry for over 20 years in the U.S. and Europe as a co-founder, partner and senior executive. Since 2012 and until recently, he served on the Board of Directors of Vuzix, a leading supplier of smart glasses and AR technology products and services and was the Chairman of Vuzix's Compensation Committee. Mr. Ruckdaeschel co-founded Herakles Capital Management and AMK Capital Advisors in 2008. He was also a partner with Alpha Plus Advisors and Nanostart AG, where he was the head of their U.S. group. Mr. Ruckdaeschel has significant experience in startup operations as the manager of DAC Nanotech-Fund and Biotech-Fund, and sits on several boards. Following service in the German military, Mr. Ruckdaeschel was a research assistant at Dunmore Management focusing on intrinsic value and identifying firms that were undervalued and had global scale potential.

Ian Charles - Independent Board Member

Ian Charles is a veteran CFO with over 25 years of executive leadership experience in technology, public markets, mergers and acquisitions, and multinational operations. He currently serves as the CFO of Filevine, a leading provider of SaaS legal solutions, and has previously served as CFO at a wide range of SaaS, finance, technology, and digital media companies, including: Flexe (2021); Scoop Technologies, Inc. (2019-2021); Planful (2014-2019); The Brenner Group (2012-2015); and RMG Networks (2010-2012). Mr. Charles co-founded and formerly served as the CFO of Unison (2003-2009), a real estate equity investment firm. His years of experience as a tech-oriented CFO across a variety of sectors has equipped him with substantial expertise in finance and operational infrastructure. Mr. Charles earned his MBA in Finance from the USF School of Management, and his BA in Political Science from University of Colorado Boulder.

Use Cases

THE GLIMPSE GROUP
Nasdaq: VRAR

Enhancing the Dining Experience with Augmented Reality Menus

GLIMPSE SUBSIDIARY: QReal

CLIENT: Denny's

SECTOR: Retail

Denny's partnered with QReal, a subsidiary of The Glimpse Group, to create an Augmented Reality (AR) experience for their menu. With QReal's expertise, Denny's launched an AR-integrated menu that immerses diners in the brand's history, highlights limited time specials, and shares ingredient stories.

The AR menu features high quality 3D assets and can be accessed through 8th Wall's web-based AR platform, which runs seamlessly on mobile and tablet browsers without requiring a separate app download.

Sephora Increases Online Makeup Sales by 35% with Virtual Try-on Experience

GLIMPSE SUBSIDIARY: QReal

CLIENT: Sephora (Turkey)

SECTOR: Retail

Sephora (Turkey) knew it had to keep pace with the growing trend of virtual try-ons to maintain its position as a top player in the industry.

To overcome this challenge, Sephora teamed up with PulpoAR, part of QReal. They developed a makeup try-on feature that allowed customers to virtually try on different makeup using a phone or webcam. The AR feature applied the makeup to a customer's face in real-time, providing a realistic preview of how the product would look on them.

As a result, Sephora saw a 25% increase in add-to-basket rate and a staggering 35% increase in conversions.

Revolutionizing Aircraft Sales Demos with Immersive VR

GLIMPSE SUBSIDIARY: Sector 5 Digital

CLIENT: Textron

SECTOR: Marketing

Textron partnered with Sector 5 Digital (S5D), a Glimpse Group subsidiary to create a unique Virtual Reality marketing experience for their new aircraft. The experience offered users the chance to fly from New York to Paris, and by leveraging the HTC Vive VR headset along with an actual seat from the aircraft, users were able to experience a 1:1 representation of the real thing.

This multi-sensory approach created a memorable experience for users, which caught the attention of many prospective buyers. The VR experience proved to be a highly effective selling tool, helping Textron Aviation to generate interest in their new aircraft and gain traction in a highly competitive market.

NALCO Water
An Ecolab Company

Bringing Dallas Cowboys Players and Fans Together with Augmented Reality

GLIMPSE SUBSIDIARY: Brightline Interactive

CLIENT: AT&T

SECTOR: Marketing

Brightline Interactive developed a product called Pose with the Pros in collaboration with the Dallas Cowboys and AT&T. The product leveraged spatial interactive design to create a digital photo booth experience that captured full-body video of the Dallas Cowboy players.

The virtual players were used as interactive characters, allowing fans to capture photos with them in a virtual environment. A WebAR on-the-go version was also created, allowing fans to enjoy the same experience from the comfort of their living rooms using a mobile phone.

Supporting Pediatric Cancer Patients with Collaborative VR Support Groups

GLIMPSE SUBSIDIARY: Foretell Reality

CLIENT: Yale University School of Medicine

SECTOR: Healthcare & Pharma

The Yale School of Medicine joined forces with Glimpse Group subsidiary Foretell Reality to create a virtual reality (VR) app for support group therapy. Patients were equipped with VR headsets and participated in virtual chat rooms with other patients and a social worker.

The use of avatars instead of live video feeds made patients feel more comfortable sharing their personal experiences, and also relieved patients' self-consciousness. VR provided a unique solution for patients to receive support and connect with others, without the added stress and physical strain of in-person meetings.
